JULY-DECEMBER, 1962

References are to page numbers. An asterisk denotes title and reference only

- Abscess, cerebral, *see* Brain abscess
 —, primary pulmonary, 99
 Absenteeism due to sickness in teachers, 244
 "Acdriole" in chronic bronchitis, 36
 Acetohexamide in diabetes, 226
 Acetyl methyl carbinol, abnormal levels in blood in depression, clinical manifestations, 48
 Acetylcholine, intracardiac infusion, in rheumatic heart disease, 90
 Acidosis, diabetic, insulin dosage in, clinical and laboratory study, 103
 —, metabolic, aetiology and treatment, 316
 Acne vulgaris, epioestriol treatment, 113
 —, oral antibiotics in, 113
 Acromegaly, cardiovascular manifestations, 224
 ACTH, *see* Corticotrophin
 Actinomycin D, additive effect on response to radiotherapy, 120
 — in treatment of childhood tumours, 381
 Actinospectacin in gonorrhoea, 335
 "Actriol" in acne vulgaris, 113
 Adenitis, cervical, in children, oral phenethicillin treatment, 73
 —, non-specific mesenteric, in children, 310
 Adenoma, bronchial, study of 40 cases, 157
 Adenopathy, mediastinal regressive, in young adults, 282
 —, tuberculous mediastinal, in adult developing at long interval after primary infection, 80
 Adenovirus Types 1 and 2, epidemic due to, 242
 — Type 7, epidemic due to, in Helsinki, 241
 Adolescents, suicide and suicidal attempts in, 46
 Adrenal, *see also* Cushing's syndrome
 — cortex function and emotional state, 234
 — — in pulmonary tuberculosis, 261
 — — insufficiency, water-loading test of, 40
 — corticosteroids, *see* Corticosteroids
 — function in myasthenia gravis, 372
 — hyperplasia, congenital, deaths in, 51
 Adrenalectomy, bilateral, in prostatic carcinoma, 297
 —, influence on resistance of mice to histamine, serotonin, anaphylactic, and endotoxin shock, 138
 Adrenaline, effect on Parkinsonian tremor, 303
 — — renal and systemic circulation in normotensive and hypertensive subjects, 95
 — in adrenals and paraganglia, histochemical study in relation to their development and involution, 362
 Adrenogenital syndrome, methylprednisolone acetate and prednisolone trimethylacetate intramuscularly in, 362
 Adrenolytic drugs in hypertension not due to phaeochromocytoma, 283
 Aerosol, triple drug (isoetharine, phenylephrine, and thelyldiamine), in asthma, 266
 Age, paternal, in mongolism, 312
 Ageing, psychological, as pre-existing factor in strokes, 232
 Air, fungus spore concentration in, in cattle shed, 70
 Air-flow obstruction, tests of, comparative study, 357
 Alcohol block, subarachnoid, in intractable pain, 72
 —, rubbing, fatal intoxication with, 388
 — sensitivity in chlorpropamide-treated diabetes, 42
 Alcoholism, chronic, calcium carbimide treatment, 112
 —, haemochromatosis and, 271
 —, postnecrotic cirrhosis in, pathogenesis, 124
 "Aldomet", *see* α -Methyldopa
 Aldosterone, action on kidney, blocking by spironolactone, 41
 — secretion in hypertension, 152
 Allergic disease in infancy, prophyllaxis, 265
 Allergy, 22, 138, 206, 265-6, 337
 —, oral betamethasone treatment, 265
 —, precipitins, reagins, and blocking antibodies in relation to, 138
 —, respiratory, due to insect emanations, 265
 Alveolar fenestrae, relation to pathology and pathogenesis of pulmonary emphysema, 125
 Alveolitis in emphysema, pathogenic implications, 5
 "Alvodine", clinical study and comparison with meperidine, 9
 Amenorrhoea, cyclic progestational therapy, 297
 "Amethopterin", *see* Methotrexate
 Amino-acid excretion in nephrotic syndrome in children, influence of corticosteroids on, 158
 Aminoaciduria in vitamin-D deficiency in premature infants and older infants with rickets, 23
 —, manifestation of renal tubular injury in lead poisoning, comparison with patterns seen in other diseases, 117
 Δ -Aminolaevulinic acid in serum and urine in lead poisoning, 387
 Amiphenazole in respiratory failure, 8
 —, modification of chlordiazepoxide drowsiness by, 378
 Amitriptyline in depression, 170, 371, 377
 Ammonia level in blood after high protein ingestion in liver disease, 86
 — — —, high, in liver disease, effect of nialamide on, 142
 — — — cerebrospinal fluid and plasma in liver disease, 86
 Ammonium chloride tolerance test in portal hypertension, use as function test after portacaval anastomosis, 87
 — urinary acidification test in study of renal function, 249
 Amodiaquine in chronic discoid lupus erythematosus, 172
 — — —, corneal deposits and pigmented palate and nails after, 172
 Amoebiasis, diloxamide and "furamide" in, 82
 Ampyproquin, intramuscular, in acute malaria, 82
 Amphetamine addiction, 47
 Amphotericin B in systemic mycotic infections, 256
 Ampicillin, clinical trials, 255
 —, pharmacology and chemotherapy, 256
 Amyl nitrite inhalation in assessment of heart murmurs, 212
 Amylobarbitone sodium, intracarotid injection, evaluation of function of cerebral hemisphere by, 230
 Amyloidosis, rectal biopsy in diagnosis, 5
 Anaemia, aplastic, alkali-resistant haemoglobin in, 32
 —, associated with thymus tumours, 218*
 —, Cooley's, *see* Thalasassaemia
 —, haemolytic, acquired, and thrombocytopenic purpura (Evans's syndrome), 153
 —, autoimmune, 6-mercaptopurine and thioguanine treatment, 219
 —, blocking of maturation of erythroblastic series in, clinical and karyometric studies, 219
 —, hereditary nonspherocytic, Type II, 153
 —, site of haemolysis and indications for splenectomy, 33
 —, hypochromic microcytic, response to pyridoxine, 286
 —, partially sensitive to pyridoxine, massive generalized haemochromatosis associated with, 287
 — in renal insufficiency, 223
 — reticuloses, 220
 — rheumatoid arthritis, erythrocyte survival studies, 162
 —, megaloblastic, erythroid cell maturation and haemoglobin synthesis in, 285
 —, haemorrhage associated with thrombocytopenia in, 218
 —, of infancy due to primary cyanocobalamin deficiency, new classification, 115
 —, plasma clearance of daily doses of folic acid in, 352
 —, serum cyanocobalamin levels in South African Bantu and, 33
 —, with proteinuria, study of four cases, 114
 —, pernicious, antibody to intrinsic factor in serum from, 287
 —, cyanocobalamin in, twice-yearly administration, 32
 —, oral cyanocobalamin and L-glutamic acid mixture in, 33
 —, prevalence in general population, comparison in rural and industrial areas, 32
 —, refractory, study of 24 cases, 97
 —, scurvy and, 267
 —, sideroachrestic, primary or essential, pathogenesis and therapy, 218
 Anaesthesia, effect on liver function during labour, 60
 —, endotracheal, in infants and children, corticosteroid and antihistaminic therapy for subglottic oedema after, 246
 — hazards in patients receiving anti-hypertensive drugs, 246
 — in children, halothane for, 315
 —, new frontiers in, 118*

- Anaesthetic gases, dry, effects on respiratory mucous membranes, 59
- Anaesthetics**, 59-60, 118, 181, 246, 315-16, 389-90
- , routine, electronic instrumentation in, 389
- Analgesia, obstetric, propiomazine in, 390
- Anaphylaxis, basophil leucocytes in, 308*
- Anastomosis, portacaval, prophylactic, in cirrhotic patients with oesophageal varices, 210
- , ventriculo-cardiac, in hydrocephalus in infants, 168
- Ancylostomiasis, bephenium hydroxynaphthoate treatment, 21
- Aneurysm, arteriosclerotic, of circle of Willis, morphology and pathogenesis, 281
- , mycotic, in bacterial endocarditis, 343
- of sinus of Valsalva, diagnosis by aortography or left angiocardiology, 182
- "Angina, abdominal", study of eight cases, 340
- pectoris, isocarboxazid treatment, 147
- , —, —, sequential trial, 92
- , —, long-term anticoagulant therapy, 147
- , —, "persantin" treatment, 92
- , —, propatynitrate and pentaerythritol tetranitrate in prevention of attacks, failure of, 26
- , —, radio-electrocardiography during exercise in, 27
- , —, pre-infarction, significance, 215
- Angiocardiology, left, in assessment of aortic and mitral incompetence, 318
- , —, —, diagnosis of aneurysm of sinus of Valsalva, 182
- , selective transeptal, of left side of heart, 391
- , technique in intracardiac shunts, 318
- , visualization of atrial septal defect during, 318
- Angiography, coronary, in ischaemic heart disease, 318
- in determining resectability of primary lung carcinoma, 293
- , —, location of supratentorial tumours, 119
- of cerebral abscess in early infancy, 317
- , renal areas in study of renal arterial stenoses with and without hypertension, 392
- , vertebral, pattern of posterior inferior cerebellar artery on, 61
- Angiokeratoma corporis diffusum, clinical study, 237
- Angioma, cerebral, migrainous symptoms of, 110
- Angiotensin, effect on urine flow and electrolyte excretion in hypertension, 95
- , experimental and clinical therapeutic studies, 350
- , response of kidneys to, in unilateral renal-artery stenosis, 129
- Antibodies against rat γ -globulin or rat albumin, effect on isolated rat mast cells, 2
- Antibody, fluorescent, in rapid presumptive identification of *E. coli* in faecal smears, 69, 70
- production by hypogammaglobulinemic patients, 253
- response to two different live poliomyelitis virus vaccines, 328
- Anticoagulant treatment, control by prothrombin determination, 3
- in acute myocardial infarction, clinico-pathological study, 149
- , —, —, —, —, in men, 91
- Anticoagulant treatment in heart disease, 347
- , —, long-term, in angina pectoris, 147
- , —, —, atherosclerosis obliterans of legs, 350
- , —, practical difficulties and deficiencies, 93
- , —, serious haemorrhagic complications, 348
- , —, subdural haematoma complicating, 232
- , —, thromboembolic complications of mitral valvotomy after discontinuation, 344
- , —, to prevent thromboembolism after mitral valvotomy, 213
- Antigen, gastrointestinal-specific, immunohistological and serological study, 322
- , —, loss in neoplasia, 322
- Antiglobulin consumption test in detection of autoantibodies to thyroid tissue sediment, 102
- Antihaemophilic factor in classic haemophilia, 285
- globulin and Factor V, double deficiency of, 249
- Anti-human-globulin sera of different specificities, production in rabbits, 354
- Antimony potassium tartrate in schistosomiasis, 20
- Antitussive, *see* Cough suppressant
- "Anturan" in gout, 44
- Anxiety states, antidepressant drug therapy, 46
- , subcoma doses of insulin in, 378
- Aorta, abdominal, arteriosclerosis obliterans of, surgical treatment, 281
- , atheroma, possible role of unsaturated fatty acid deficiency in formation, 351
- , coarctation, arterial hypertension in, 216
- , —, report of 53 cases, 215
- , —, surgical treatment, review of 500 cases, 93
- , descending, dilatation in left bronchial compression syndrome, 274
- , hypoplasia associated with hypoplasia of branches of pulmonary trunk, 347
- , lipid and mineral content in coronary arterial and other diseases, 348, 349
- , stenosis, congenital, surgical treatment, 89
- , —, —, —, indications for, and results, 29
- , —, critical review, 145
- , —, pseudo-, due to idiopathic myocardial hypertrophy, 276
- Aortography in diagnosis of aneurysm of sinus of Valsalva, 182
- , percutaneous transfemoral, in diagnosis of abnormalities of renal arteries, 63
- , —, with aid of Valsalva manoeuvre, 318
- Aphasia in hemiplegic children, aetiology and course, 115
- Apocrine gland tumours, benign, histochemically demonstrable carbohydrates of, 237
- Appetite of asthmatic children, effect of cyproheptadine on, 266
- Arachnoiditis, spinal, 41 cases, 302
- Arrhythmia, chronic, quinidine polygalacturonate in, 90
- , quinidine-induced fibrillation, treatment by closed-chest resuscitation and external defibrillation, 278
- Arsenic in hair, estimation by activation analysis, 57
- Arteries, carotid, occlusion, anticipated clinical course, 109
- , —, or vertebral, occlusion, adaptation of circle of Willis to, 109
- , coronary, *see* Coronary
- Arteries, hepatic, blood flow and oxygen supply, determination by clamping during surgery, 274
- , posterior inferior cerebellar, pattern of, on vertebral angiography, 61
- , renal, diagnosis of abnormalities by percutaneous transfemoral aortography, 63
- , —, reconstruction in renovascular hypertension, 31
- , —, unilateral stenosis, response of kidneys to angiotensin in, 129
- , subclavian, radiological image in pulmonary apex, 62
- Arteriosclerosis, coronary, diagnosis by glucose-loading ECG test, 278
- , —, lack of correlation between fatty acid patterns in adipose tissue and amount of, 140
- , femoral artery, polyunsaturated fatty acids in lipids of, 139
- , obliterans of abdominal aorta or arteries of legs, surgical treatment, 281
- Arthritis, *see also* Osteoarthritis; Periarthritis
- , calcium phosphate crystals in synovial fluid in, clinical aspects and identification of crystals, 300
- , rheumatoid, anaemia in, erythrocyte survival studies, 162
- , —, antimalarials in, 106
- , —, cholesterol and phospholipid fractions in synovial fluid in, 162
- , —, corticosteroids in, 106
- , —, —, with methandienone in, 228
- , —, dexamethasone treatment, inhibition of negative nitrogen balance by methandienone during, 299
- , —, diagnostic features of feet in, critical evaluation, 106
- , —, effect of serotonin inhibitors on, 229
- , —, femoral-head destruction in, 228
- , —, following acute pericarditis, 369
- , —, in children, clinical features, 300
- , —, intra-articular injection of methylprednisolone in, 105
- , —, kidney in, renal biopsy studies, 188
- , —, pituitary and adrenal hormones in, 43
- , —, pleural effusion with low glucose concentration in, 162
- , —, relation between streptococcal agglutination and other serological reactions in, 369
- , —, serological reactions and aetiology of, 368
- , —, —, in hyaluronidase-treated joint exudate and whole sera in, 368
- , —, serum and synovial-fluid proteins in, 123
- , —, spontaneous fractures in, 162*
- , —, staphylococcal vaccine treatment, 299
- , —, systemic scleroderma in, 44
- , —, tryptophan metabolism in, 162
- , syndrome in systemic lupus erythematosus, 163
- Arthropathy, tabetic, in rheumatology, 263
- Ascariasis in peptic ulcer, radiological evidence, 21
- of biliary tract, clinical study, 264
- Aspergilloma, pulmonary, diagnosis and surgical treatment, 156
- Aspergillosis, pulmonary, radiological appearances, 317
- Aspirin, gastrointestinal haemorrhage associated with, 57
- in minor respiratory infections, comparison with antibiotics, 192
- , plain and buffered, comparison of gastrointestinal absorption rates, 72
- , relation to chronic gastric ulcer, 24

- Asthma and bronchitis with emphysema, differential diagnosis, 138
- chronic bronchitis, post-mortem differences in, 138
 - , betamethasone treatment, 206
 - , "expansyl" for bronchial spasm in, 22
 - , fluprednisolone treatment, 206
 - , hypnosis in, 337
 - in children, cyproheptadine treatment, effect on appetite, weight gain, and linear growth, 266
 - — —, effect of exercise on ventilatory function in, 206
 - — —, fluprednisolone treatment, effect on weight gain and linear growth, 266
 - , pulmonary tuberculosis and, association between, 206
 - , ragweed emulsion therapy, immunological and clinical responses to, 22
 - , triple drug (isoetharine, phenylephrine, and thenyldiamine) aerosol in, 266
- "Astiban" in *Schistosoma haematobium* infection, 205, 264
- Ataxia, acute cerebellar, in children associated with poliovirus Type I infection, 327
- Ataxic syndromes, congenital, in cerebral palsy, 115
- Atelectasis, acute pulmonary, in infants, diagnosis and pathogenesis, 382
- Atheroma of aorta, possible role of unsaturated fatty acid deficiency in formation, 351
- Atherosclerosis, cholesterol accumulation in, hypothesis to explain, 216
- , — and serum turbidity measurements in, 280
 - , cyanocobalamin therapy, 151
 - , estimation of severity by post-mortem analysis of mineral and lipid content of coronary arteries and aorta, 349
 - in animals at London Zoo, 151
 - , influence of vegetable oils on blood level of cholesterol and lecithin in, 150
 - , nutrition and, 351*
 - , obliterans of legs, long-term anticoagulant treatment, 350
 - of aorta and its coronary and renal arteries, comparative degree, 6
 - — legs, 92
 - — mesenteric arteries, 340
 - pathogenesis, role of local cholesterol reutilization in, 1
 - , segmental distribution, factors affecting, 1
 - , use of biochemical and instrumental methods in investigation, 93
- Atom bomb explosion, leukaemia after exposure to, in Hiroshima and Nagasaki, 289
- Atropine, amnesic properties in premedication, 389
- , effect on pulse rate in anaesthesia, 316
 - , intravenous, for premedication before electric convulsion therapy, 112
 - , local effect on coronary vascular resistance, 128
- Auscultation of cardiac disorders, advances in, 275
- Autoantibodies to thyroid tissue sediment detected by antiglobulin consumption test, 102
- Autoantibody, cytotoxic, of thyroid, 321
- Autoclaving, effect on life of mineral rubber endotracheal tubes, 118
- Autoerythrocyte sensitization, clinical study, 375
- Autoimmune disease of thyroid and colon, 361
- response in myasthenia gravis, 322
- Autoimmunity in liver disease, serological investigation with clinical correlations, 142
- "B 663" in leprosy, 19
- Bacteraemia due to Gram-negative bacilli, 78
- Bacteriuria, asymptomatic, of pregnancy, socio-economic factors and, 294
- Balanitis xerotica obliterans, hydrocortisone injections in, 294
- Ballistocardiography, ultra-low-frequency and improved high-frequency techniques compared, 346
- Barbiturates, basic actions on key areas of brain, 325
- poisoning, acute, blood lavage in, 388
- Barium sulphate, micro-opaque, as contrast medium in estimating size of brain abscess, 110
- B.C.G., oral, in pulmonary tuberculosis, action on evolution of disease and on tuberculin allergy, 135
- vaccination, tuberculosis in children after, 333
 - vaccine, freeze-dried, percutaneous multiple puncture inoculation of, 79
 - — in chronic pulmonary tuberculosis, 79
- Bees, secretion of allotropic glands in treatment of nutritional disturbances in children, 310
- Behaviour disorders, trifluoperazine treatment, 234
- of guinea-pigs and rats, effect of psychotropic drugs on, 326
- Benzidine, multiple carcinomata and diffuse papillomatosis of renal pelvis and ureters due to, 243
- Benzylpenicillin, cross-allergenicity with related substances, 206
- in acute suppurative otitis media in children, 51
- "BepHan spacetabs" in peptic ulcer, 86
- Bephenium hydroxynaphthoate in ancylostomiasis, 21
- Betamethasone in bronchial asthma, 206
- , oral, in allergy, 265
- Bile stasis, idiopathic, in newborn, 50
- Bilharziasis, *see* Schistosomiasis
- Biliary tract, *Ascaris lumbricoides* invasion of, 264
- disease, starvation treatment, 7
- Bilirubin, *see also* Hyperbilirubinaemia
- metabolism, effect of novobiocin on, experimental study, 130
 - rebound after exchange transfusion, haemolysis as contributing factor, 50
- "Biloptin" in oral cholecystangiography, clinical trial, 247
- Binswanger's disease, review of literature and report of two cases, 373
- Blackwater fever, artificial kidney in, 204
- Blastomycosis, North American, amphotericin-B treatment, 256
- Blindness, congenital, maternal rubella and, 257
- Blood calcium level, depression by parathyroid hormone "calcitonin", 39
- — cerebrospinal fluid barrier in uraemia, 38
 - circulation, *see* Circulation
 - coagulation defect, latent, partial thromboplastin-time test as screening procedure, 121
 - —, effect of different dietary fats on, 279
 - — — fatty acids on, 355
 - — — phenobarbitone on, 355
 - —, inadequacy of prothrombin test as guide to hypercoagulability, 185
- Blood flow, hepatic arterial, determination by clamping hepatic artery during surgery, 274
- — reversal in adults with patent ductus arteriosus, 346
 - grouping specificity with plant lectins, application of *N*-lectin to dry blood-stains, 4
 - groups, ABO, relation to ischaemic heart disease, 348
 - — and disease, previous transfusion as potential source of error in blood typing, 354
 - —, production of anti-human-globulin sera of different specificities in rabbits, 354
 - —, Rh and MN, disease and, 175
 - in pleural cavity after death, medico-legal significance, 117
 - lavage in acute barbiturate poisoning, 388
 - , maternal and cord, penicillin antibody in, relation to hypersensitivity, 255
 - , peripheral, malignant cells in, 321
 - platelet antibodies in idiopathic thrombocytopenic purpura, 154
 - — — man, 65
 - — count in acute leukaemia, quantitative relation to haemorrhage, 289
 - — specific antigens studied with heterospecific antisera, 4
 - — survival, effect of different dietary fats on, 279
 - pressure, *see also* Hypertension; Hypotension
 - —, arterial, and hypertension in West Indians, 283
 - —, in an industrial population, bearing on problem of essential hypertension, 282
 - — —, — young people, 30
 - — of healthy white males, cohort study, 283
 - —, systemic, effect on evaluation of coronary circulation by myocardial transit time, 345
 - —, venous, significance in congestive heart failure in infants, 114
 - serum turbidity measurement in atherosclerosis, 280
 - stains, dried, classification according to type of pseudocholinesterases present, 388
 - —, modern methods of grouping, 179
 - sugar level determination by improved dinitrosalicylic acid method, 122
 - supply, peripheral, impairment causing abnormalities of finger nails, 379
 - transfusion, exchange, haemolysis as contributing factor in bilirubin rebound after, 50
 - —, in erythroblastosis foetalis due to Rh antagonism, 352
 - —, — newborn, risks of, 173
 - — in myocardial and coronary-artery disease, 280
 - —, massive, collection and preservation of blood for, 354
 - —, serum hepatitis after, 331
 - vessel distensibility of hand, effect of thiopentone on, 59
 - vessels, pulmonary, mineralizing elastosis after prolonged chemotherapy, 66
 - volume alterations during "normovolaemic" total body perfusion, 26
- Bone change patterns in classic haemophilia and Christmas disease, 61
- changes after local injection of corticosteroids for scapulo-humeral peri-arthritis, 228
 - in leprosy, incidence, progress, prevention, and arrest, 83
 - —, radiological, in thalassaemia, 352

- Bones, long, growing, radiological findings in phenylketonuria, 183
- Botkin's disease, *see* Hepatitis, infective
- Boyle vaporizer calibrated for halothane, variation in performance, 60
- Brain, *see also* Cerebrovascular; Electroencephalogram; Encephalitis; Encephalopathy; Meningitis; Pneumoencephalogram
- abscess in children, 52
- — early infancy, angiographic study, 317
- — "steripaque" as contrast medium in estimating size, 110
- angioma, migrainous symptoms of, 119
- basic actions of tranquilizers and barbiturates on key areas, 325
- circulation, rheoencephalography in study of, 371
- cysticercosis, clinical symptoms and operative results, 373
- diencephalon lesions, thyroid function with, radioactive iodine studies, 167
- disease, atrophic, clinical and electroencephalographic studies, 107
- — in chronic listeriosis, 373
- evaluation of function of cerebral hemisphere by intracarotid injection of amylbarbitone sodium, 230
- oedema, acute phase, neuropathological study, 68
- syndromes, minimal chronic, in children, 52
- third ventricle, aimed filling with positive contrast agents, 119
- tumour and seizures in children, electroencephalographic study, 311
- — in children under 3 years of age, clinical picture, 110
- — of precentral region with posterior cerebral fossa symptoms, 167
- —, radiation therapy, 183
- —, supratentorial, location by angiography or pneumography, 119
- Breast carcinoma, advanced, mannitol "busulphan" in, 195
- — radiosensitivity, determination, 64
- superficial phlebitis of, causes and treatment, 281
- Bretylum, influence on liberation of catechol amines, 191
- , pharmacology and clinical use, 31
- tosylate in severe hypertension, 217
- Bromide intoxication, clinical and experimental study, 180
- Bromindione, anticoagulant properties, clinical trial, 7
- p-Bromophenylindanedione, *see* Bromindione
- Bronchial tree in coal-miners' pneumoconiosis, 245
- Bronchiectasis, bronchiolar behaviour in, 291
- , clinical and post-mortem findings, comparative evaluation, 357
- fume fixation-inflation study of broncho-alveolar structures in, 5
- , pseudotumoral, 99
- Bronchioles, behaviour in pulmonary emphysema and in bronchiectasis, 291
- Bronchitis, chronic, and asthma, post-mortem differences, 138
- , erythropoiesis and ferrokinetics in, 356
- , exacerbations of, comparison of oxytetracycline and oral phenoxymethylpenicillin treatment, 100
- , "expansyl" for bronchial spasm in, 22
- , five-year follow-up study, 156
- , —, radiological aspects, 156
- , in manual labourers due to intrathoracic pressure changes, 178
- , —, patients over 70 years of age, 100
- Bronchitis, chronic, long-term tetracycline treatment, 221
- , —, methyl cysteine hydrochloride in, 36
- , —, prednisolone treatment, 356
- , —, spiographic study, 356
- , —, spirometric and peak expiratory flow measurements in, comparison with non-bronchitic subjects, 357
- , —, sputum cytology in, 291
- in children, oral phenethicillin treatment, 73
- with emphysema, differential diagnosis from asthma, 138
- Bronchopulmonary disease in sulphur miners, 386
- Bronchoscopy in primary pulmonary tuberculosis in children, 203
- Bronchus adenoma, study of 40 cases, 157
- carcinoma, effects of radiation on lungs and pulmonary function in, 120*
- , myasthenic syndrome associated with, 108
- , surgical treatment, conservatism in, 37
- , left, compression syndrome, diagnosis, 274
- "Broxil", *see* Phenethicillin
- Brucella cultures isolated from reindeer, 127
- Brucellosis, familial, dietary treatment, 140
- in South Africa, 259
- Burger's disease, a distinct clinical and pathological entity, 351
- Busulphan in chronic myeloid leukaemia, immediate and remote results, 98
- Byssinosis in Egyptian cotton industry, 178
- , size of cotton-dust particles causing, environmental and physiological study, 54
- Caesarean section, anaesthesia for, methohexitone and thiopentone compared, 315
- Calciferol in scleroderma, 44
- Calcification of coronary artery, cinefluorography of, correlation with clinical arteriosclerotic heart disease and necropsy findings, 63
- "Calcitonin", depression of calcium level in blood by, 39, 297
- Calcium, *see also* Hypercalciuria
- binding by plasma proteins in hypercalcaemia due to primary hyperparathyroidism, 359
- carbimide in chronic alcoholism, 112
- ipodate in "3-hour" cholecystography, 247
- level in blood, depression by parathyroid hormone "calcitonin", 39, 297
